PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in Web development through academic projects and internships. Skilled in HTML, CSS, JavaScript, React, SQL, and Git. Passionate about building responsive, user-friendly web applications and continuously improving frontend development skills.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design, Bootstrap

Programming: Java(Basics), Typescript(Basics), Object-Oriented Programming (OOP)

API Integration: REST APIs, Fetch API, JSON, Postman

Version Control: Git, GitHub

UI/UX: Figma, Wireframing, Prototyping

Database: SQL(MySQL), DBMS Fundamentals

Tools: VS Code, IntelliJ IDEA, Android Studio, Firebase

EXPERIENCE

UI/UX Intern | Pentagon Innovation

Nov 2025 – Jan 2026

- Designed user interfaces and workflows for web applications using Figma.
- Created wireframes, layouts, and reusable design components.
- Collaborated with team members to improve usability and visual consistency.

React Developer Intern | AK Infopark

Jan 2024 – Feb 2024

- Contributed to the development of an e-commerce web application's frontend using React.js.
- Created responsive user interface components with React, HTML, CSS, and JavaScript.
- Implemented product display pages and reusable UI elements..
- Collaborated with team members to improve performance and usability.

PROJECTS

Campus Lost & Found Management System | React · Node.js · TypeScript · SQLite

- Built a responsive React admin dashboard for item management and claim tracking.
- Integrated REST APIs for data retrieval and user management.
- Implemented JWT-based authentication and role-based access.
- Designed user interfaces using Figma and translated them into responsive web pages..

WayFuel — On-Demand Fuel Delivery App

- Developed a frontend checkout interface supporting split-payment workflows.
- Implemented responsive UI using HTML, CSS, and JavaScript.
- Tested and validated multiple payment-state scenarios.

SplitPay — Hybrid Payment System

- Designed a split-transaction checkout system (online + COD) to reduce cart abandonment; modelled complex business logic, validated edge cases, and wrote clean, maintainable code.
